

Disaster Recovery as a Service (DRaaS)

The easy way to protect your IT environment

The Disaster Recovery as a Service solution from Auxilion reduces capital costs by leveraging cloud and on-demand availability to provide a simplified, cost-effective solution to protect your IT environment.

What is DRaaS from Auxilion?

As organisations become increasingly dependent on their data and information to operate, business continuity and disaster recovery planning is more important than ever. In the event of a planned or unplanned outage, this DRaaS solution ensures your data is safe and your business can continue as normal.

Why customers use it:

- Cost Effective DR solution for your business
- Get real peace of mind knowing your data is safe
- Fast, flexible, simple, safe and secure solution
- Ensures business continuity during an outage
- Easy to start, use and scale

Peace of Mind

- Protect business-critical data
- Safe and secure solution
- Sleep comfortably at night!

On average, data breaches cost more than \$3 million per incident.

Cost Effective Solution

- Pay-as-you use
- Scale up and down as needed
- Eliminate hardware costs

Start small, pay as you go and add more in as you see the benefits!

Ensures Business Continuity

- Ensure you can always operate
- Use for un/planned outages
- Prevent a data loss crisis!

How much revenue would your business lose if out for one day?

Applegreen have moved key workloads to Microsoft Azure with Auxilion. It works very well for us and gives us real piece of mind.
- Vincent Nolan, Head of IT, Applegreen PLC

Azure + Azure Site Recovery + 24x7 Monitoring via our ISO20000-certified Service Operation Centre

Don't take our word for it!

- 100% of customers start small and ramp up!
- Zero data loss incidents across our client base
- 50% reduction in storage and data related costs

Azure meets Auxilion

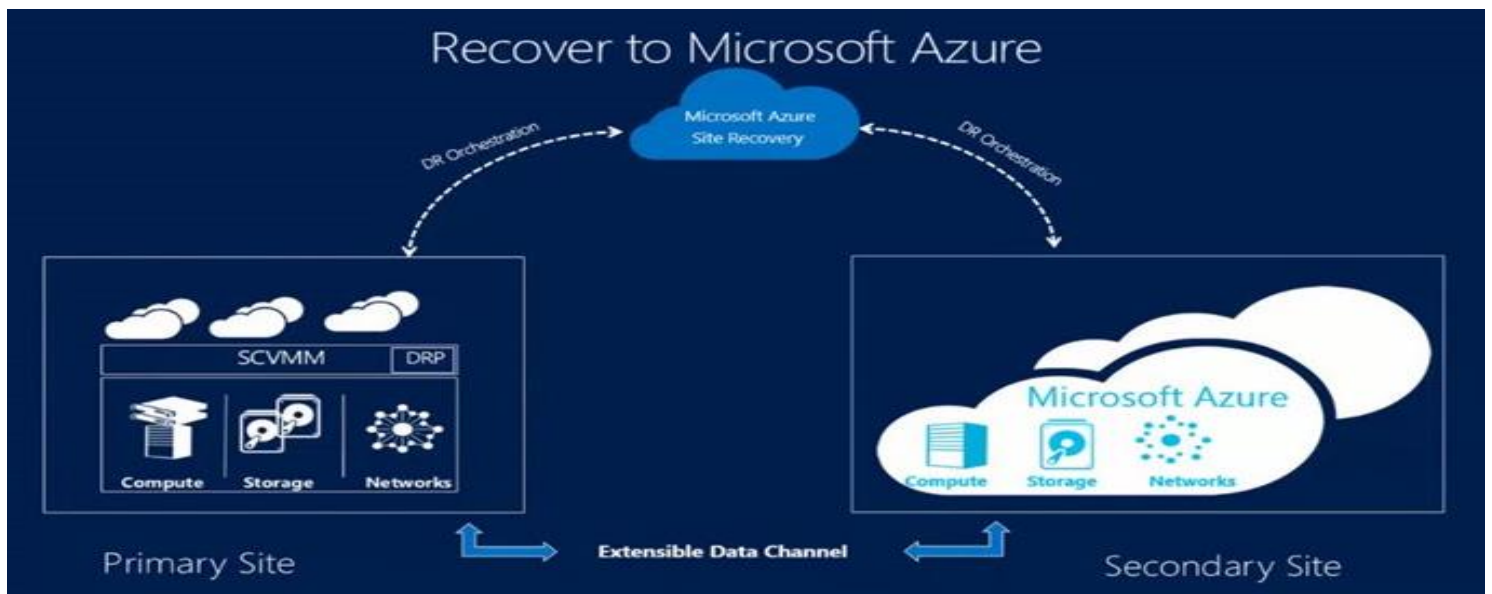

- Complement the security of Azure with our 24x7, 365 remote monitoring and management service
- Service delivered out of our ISO20000 support centre
- Real peace of mind for business-critical data

What you get?

The power and security of the Microsoft Cloud with our award-winning support service including scheduled Disaster Recovery testing and 24x7 Remote Monitoring.

Start small!

- Put us to the test by putting a small workload up onto our DRaaS

Business Benefits

- Guaranteed peace of mind that your data / information is safe!
- Slash your hardware and storage costs by 50%
- Ensure continuity of your business during an outage

Why Auxilion?

Auxilion helps organisations optimise and differentiate how they serve their customers through Microsoft digital transformation and support services. Named Azure Hybrid Infrastructure Partner of the Year at Microsoft Inspire in 2017, Auxilion is recognised as a market leader in the deployment and support of Azure-based business solutions.
